## Schemas

```
UpdateProductRequest {
  description      string
  price            number
                  minimum: 0.01
                  exclusiveMinimum: false
  isAvailable      boolean
}
```

```
ProductResponse  {
  id                integer($int64)
  productName       string
  description        string
  price             number
  isAvailable       boolean
  createdAt         string($date-time)
}
```

```
CreateProductRequest  {
  productName*      string
  description        string
  price*            [...]
  available          [...]
}
```

```
PageProductResponse  {
  totalPages         [...]
  totalElements      [...]
  size              [...]
  number             [...]
  content            [...]
  sort              SortObject  {...}
  first              [...]
  last              [...]
  numberOfElements   [...]
  pageable           PageableObject  {...}
  empty              [...]
}
```
